

## NAUTIWATER SFR-450 SPOT FREE RINSE CARTRIDGE SYSTEM

Our Eco-Friendly *SFR-450 Spot Free Rinse System* is designed for use with boats, yachts, autos and RV's. Unlike other spot free rinse cartridge systems, our systems are configured with returnable cartridges! There is no need to dispose of the cartridge and/or media once it is exhausted. We take back the cartridges and exchange with fully reconditioned cartridges, which cost less than new ones. This makes our system truly **Green & Eco-Friendly**. You won't be disposing perfectly good media into landfills.

The base model **SFR-450 System** includes:

- Dual Cartridges install in a portable cart
- Water quality light with rechargeable battery pack
- Non-corroding garden hose fittings
- Shipping packaging with pre-paid shipping label for cartridge exchange

Optional items:

- Multifunction power station/charger...Can charge cell phones, iPods, iPads (tablets), cameras, etc.
- Outlet hoses with non-metallic fittings (recommended, as de-ionized water will affect brass fittings)
- Wall mount option vs wheeled version (price deduct)
